Introduction

We're pleased to present the Annual Report for the Advance Fixed Term Pension at 30 June 2016. This report is issued in accordance with the Corporations Act 2001. It contains general information, providing details of the financial position and management of the accounts for the Advance Fixed Term Pension Accounts.

The report also details how you can obtain additional information about your Account. You can request additional information (including the trust deed, financial statements and auditor's report) from our Customer Relations team. Details are on page 3.

Understanding your investment

As at 30 June 2016, all of the Advance Fixed Term Pension assets comprised investments in the Prime Securities Trust No. 3 – Indexed to the CPI and Prime Securities Trust No. 3F – Non indexed (the Trusts), which are managed by UBS AG, ABN 47 088 129 613 (UBS).

UBS does not in any sense 'stand behind' the performance of Advance's obligations, nor guarantee the capital value or performance of units, nor have any liability in connection with the Advance Fixed Term Pension. UBS is not responsible for any statement or information contained in this Annual Report.

For further details about the Advance Fixed Term Pension assets, please see the abridged financial information on page 4.

Investments exceeding 5%

100% of the Advance Fixed Term Pension assets are invested in the Prime Securities Trust No. 3 – Indexed to the CPI and Prime Securities Trust No. 3F – Non indexed (the Trusts), which are managed by UBS AG, ABN 47 088 129 613 (UBS).

Investment objectives and strategy

To provide two separate income streams for set terms – one income stream supporting payment of the non-indexed fixed term pensions and the other income stream supporting payment of the indexed fixed term pensions.

This is achieved through the investment in the Trusts, which pay us amounts that are used to make your pension payments, so the total amount in any year will not fall below the total amount of pension payments made in the relevant preceding year. The Trusts only invest in assets with a high degree of security, such as:

- > investments rated A-1+ (short term) or at least AA+ (long term) by Standard & Poor's at the date of acquisition
- > investments with entities rated A-1+ (short term) or at least AA+ (long term) by Standard & Poor's at the date of acquisition
- > investments which are obligations of, or guaranteed by, the Commonwealth Government or a State Government at the date of acquisition.

While the assets of the Trusts will generate cash flows to pay your pension payments over the term you select, the timing, frequency and amount of the cash flows may not match the timing, frequency and amount of your pension payments.

To overcome this, UBS may use derivatives undertaking to 'swap' the cash flows of the Trusts' assets and liabilities in financial markets, despite the performance of the underlying assets of the Trusts. UBS does not use derivatives to leverage (gear) the Trusts. The Advance Fixed Term Pension itself doesn't invest in derivatives directly.

Other important information

Professional Indemnity Insurance

As trustee of the Advance Fixed Term Pension, BTFM is responsible for the day-to-day administration and ensuring it complies with all relevant laws and the provisions of the trust deed. To cover any potential liabilities, BTFM has taken out professional indemnity insurance.
